Jeff – can you also run a search on Dan Wall’s edocs and email for the additional two searches below? I’m not certain we can run a search that way on Lotus Notes but let’s see what we can do.

Thanks for this Alyse. Can we also get an ESI hit count using the terms: (1) Westlake w/5 (“Operable Unit 2” OR OU-2) and (2) Westlake w/10 Former Active Sanitary Landfill? After further consideration, we may need to request that material as well depending on the hit count, recognizing as you noted, those searches may result in a very large number of hits. Thanks. --
Jennifer

Good morning Jennifer –

In follow up to our phone call yesterday, attached is an index of our West Lake Landfill Superfund electronic files for the 1/1/05 – 12/1/2010 date range. As we mentioned, these include files for both OU1 and OU2. In addition, here are the other items we discussed:

∇ I've contacted our OSWER office in Washington D.C. to initially see if they have any responsive records.

∇ For our Region 7 office we will initially identify custodians in our Superfund program and ask them to identify the amount of hard copy and electronic responsive records they may have before we initiate any collection activities. We will also inquire whether our other media programs may have responsive records.

∇ Initial search terms will be "Bridgeton AND Landfill" and/or "South AND Quarry".

I'll plan to call you at 3:00 central time on Monday June 29th to check in on the status of the above and next steps. In the meantime if you have any questions please don't hesitate to contact me.

Regards,

Alyse
